Secondo il ricercatore Florence Lacroix, che ha presentato una tesi sulla Soka Gakkai, "questa setta ha una fortuna superiore a quella di Toyota." La prima entrata proviene dai contributi dei suoi seguaci giapponesi ... Poi, nella sua attività editoriale: un quotidiano che vende oltre 5 milioni di copie (il cui acquisto non è obbligatorio per ogni credente), un bi-mensile, un trimestrale, non compresi i nuovi libri e addirittura la musica per la gloria del guru ... Vi è anche il business delle sepolture religiose: altari, lapidi ... In Giappone, il costo medio di una cerimonia funebre è di circa 10.000 euro. "La Soka Gakkai sta guadagnando un sacco di soldi per la vendita di pietre tombali. Possiede un cimitero e 300.000 tombe", continua Florence Lacroix.

Con tutto questo, abbiamo dubbi sul fatto che il guru Ikeda non abbia una vita piuttosto comoda. "Nel 2000, ha pagato più di 1 milione di imposta sul reddito". "La Soka dispone di 100 miliardi di liquidità, che sono investiti in varie banche che li usano come capitale di esercizio." Soprattutto la Mitsubishi bank che riceve il favore della setta. Scambia con questa tutta una serie di iniziative fra le quali: la Mitsubishi assume studenti usciti dalla l'Università degli Studi della Soka Gakkai.

Questo è un tipico esempio di una setta pienamente integrata nella società. Ogni collegamento è ottimizzato;

-per i seguaci: l'aspetto vincente della loro religione .

-Per la comunità internazionale: un discorso pacifista.
-Per infiltrarsi nelle strutture pubbliche: un partito politico.
-Per il denaro il sostegno di un importante gruppo finanziario ...
Tutte questi aspetti rispettabili potrebbero creare l'illusione di una istituzione onesta. Ma
fondamentalmente, se Ikeda o la Soka avessero il potere effettivo, che cosa farebbero?
Seigo, un ex seguace della setta, risponde: "Sicuramente sarebbe una dittatura. In Giappone, si dice
che la Soka Gakkai, sia il fascismo sorridente e Ikeda è come Hitler che recita il Sutra "
